

# Application Development Tools

More than 2 million independent software and enterprise developers use Embarcadero tools to develop innovative applications faster.

Embarcadero has development tools for the most popular platforms and technologies – Windows®, .NET, Web apps, Java™, Mac, and Linux.

**C++Builder® XE** is the only true RAD C++ environment – combining a powerful ANSI C++ tool chain with a rich visual component framework for ultra-fast Windows application development.

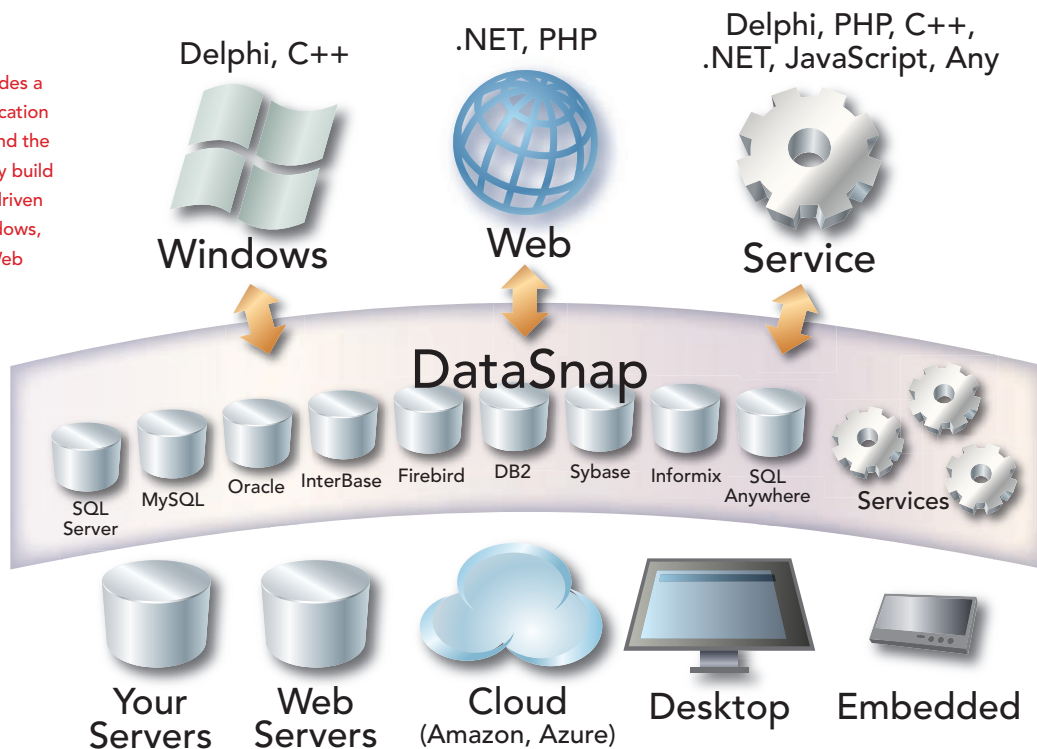

**RAD Studio XE** is a comprehensive application development suite and the fastest way to visually build GUI-intensive, data-driven applications for Windows, .NET, PHP and the Web.

**Delphi® XE** is the fastest way to deliver ultra-rich Windows applications. Dramatically reduce coding time and create applications 5x faster with component-based development.

**Delphi Prism™ XE** provides a cross-platform development solution and robust programming language for rapidly developing .NET, Mono, ASP.NET, and data-driven applications for Windows, Linux and Mac OS X.

**RadPHP™ XE** revolutionizes web development with an integrated, rapid visual development approach and component framework for PHP.

RAD Studio XE provides a comprehensive application development suite and the fastest way to visually build GUI-intensive, data-driven applications for Windows, .NET, PHP and the Web

## Java™ Tools

**JBuilder®** continues to drive innovation and increase Java™ developer productivity by providing an enterprise-class, Eclipse-based integrated development environment (IDE) with support for the leading commercial and open source Java EE5 application servers.

**J Optimizer** provides Java™ developers with a comprehensive environment for optimizing application performance and managing application quality, enabling you to deliver fast, scalable, and reliable applications.

## Embedded and Workgroup DBMS

**InterBase® XE** allows developers to create amazingly fast, resilient embedded applications. InterBase is a self-tuning, multi-version RDBMS with simple installation, low TCO, and automatic crash recovery.
