

ARCHITECT, ORGANIZE, AND MIGRATE SHAREPOINT CONTENT

SharePoint Migration Suite | **The most comprehensive solution** for SharePoint migration

EASY-TO-USE, POWERFUL TOOLS FOR SHAREPOINT ADMINISTRATORS!

Idera SharePoint migration suite is the most comprehensive solution available for SharePoint content migration. It goes above and beyond traditional SharePoint migration solutions enabling you to visually architect and organize content and metadata during your migration, to improve search, eDiscovery, usability and manageability.

SHAREPOINT MIGRATION SUITE INCLUDES:

SharePoint information architect CAPTURE, VISUALIZE, EDIT AND DEPLOY SHAREPOINT TAXONOMIES

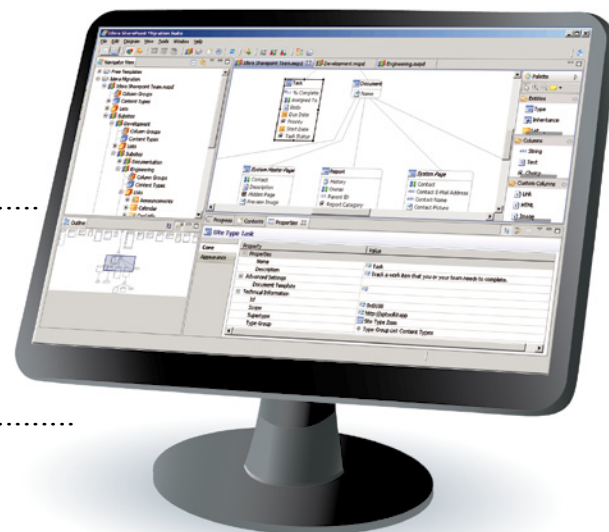

Quickly and easily develop, deploy and maintain SharePoint metadata and taxonomies

SharePoint content organizer TAG AND ORGANIZE YOUR SHAREPOINT CONTENT IN BULK

Apply metadata and relocate files anywhere in SharePoint with just a few clicks

SharePoint migration manager MIGRATE AND ORGANIZE SHAREPOINT CONTENT

Deploy, migrate and compare content within versions of SharePoint or from file systems

Most SharePoint migration products are "project-based", designed for one-time use on a migration project with onsite services to craft a custom solution. Idera SharePoint migration suite is designed to be used over and over again, with no services required, in a wide variety of scenarios including:

- SharePoint platform upgrade - migration from or between SharePoint 2003 to 2007 to 2010
- SharePoint site consolidation
- SharePoint farm/site collection/site reorganization
- Rolling out new sites and applications from development through testing and staging to production

Whether you want to harness the full power of a multi-use migration solution or are just looking for the fastest way to migrate to SharePoint 2010, Idera SharePoint migration suite is your best choice.
